SUMMARY

Full-Stack Developer and B.C.A graduate with about 1 year of internship experience across two companies, building web applications with the MERN stack (MongoDB, Express, React, Node.js) and Next.js. Built LinkedIn, Instagram scrapers, a real estate platform and a Smart Order Management System (SOMS) with JWT-based role-based authentication and secure data management. Available to join immediately.

WORK EXPERIENCE

Full-Stack Developer Intern — Ramyoz Solutions **Mar 2026 – Aug 2026**
On-site · 6 months

- Worked as a full-stack developer on the Diginfluencers platform using Next.js, Node.js, Express.js and MongoDB.
- Implemented JWT-based user authentication and built REST APIs for the platform.
- Built web scrapers for LinkedIn and Instagram, including a nested-profile scraper for both platforms.

Full-Stack Developer Intern — Cling Infotech **Jun 2025 – Dec 2025**
On-site

- Worked on Tukang Hub, a MERN-stack CRM system connecting businesses with customers.

PROJECTS

Smart Order Management System (SOMS)
A full-stack restaurant ordering and management platform with real-time order processing, menu customization, admin analytics dashboards and JWT-based role-based authentication.

Real Estate Website
An online real estate platform for browsing property listings.

Fluxfit (E-Commerce Website)
A full-stack e-commerce website with product listings and shopping features.

LinkedIn & Instagram Scraper
Built web scraping tools to extract structured profile data, including nested-profile scraping for LinkedIn and Instagram.
